

**GiveVision™**: Revolutionising Accessibility in Live Entertainment

**Who We Are:**

Give**Vision** is an innovative assistive technology company, leading the way in creating accessible solutions for the visually impaired community. Our journey began with developing low vision aids for individual use at home. Today, we've expanded our focus to transform public venues and stadiums, connecting a broader audience to the exhilarating world of live events.

**The Challenge:**

Despite 1 in 30 individuals suffering from sight loss, only a fraction - approximately 1 in every 3000 spectators - are visually impaired at stadiums and arenas. This stark disparity highlights a significant gap in accessibility, barring millions from the joy of live experiences.

**Our Solution: GiveVision LIVE**

Our flagship product, the Give**Vision** headset, is a game-changer in the realm of low vision technology. Offering two viewing modes – a real-time camera stream and TV stream – it empowers visually impaired individuals to fully engage with live sports and cultural events using their remaining sight. We're proud to be the sole provider of this innovative service, already collaborating with prestigious entities like [Premier League clubs](#), [Uber Eats Ligue 1 Clubs](#), [Wimbledon](#), and the [World Para Athletics](#).

**Impact and Reach:**

Our technology is not just a product; it's a movement towards inclusivity. The introduction of diverse accessibility options like Give**Vision** goes beyond enhancing the experience of existing fans; it plays a key role in broadening the club's reach. Something particularly important given the significant underrepresentation of the low vision community at sporting events. By embracing inclusive technologies, clubs send a powerful message of equality and inclusivity. Our installations at renowned venues like the Wimbledon and in collaboration with partners like Vodafone and Paris Council, showcase our commitment to making live events a joyous occasion for everyone.

**Join Our Mission:**

We invite you to be part of this transformative journey. Together, we can break down barriers and create a world where live entertainment is accessible to all, irrespective of visual impairments. Let's change the game with Give**Vision**.
