

Post-16

At St. Vincent's School, learners benefit from a broad and balanced curriculum that is carefully designed to meet individual needs while preparing pupils for life beyond the classroom. The curriculum promotes not only academic achievement, but also personal development, independence, and employability.

Core subjects such as English, Maths, and IT/Computing are complemented by a wide range of enrichment opportunities, including Music, Art, and Creative Arts, ensuring all students can explore their interests and talents. Subjects such as Personal Growth & Wellbeing (PG&W), Personal & Social Development (PSD), and Healthy Living & Fitness (HL&F) support emotional wellbeing and resilience, while Citizenship helps learners understand their role within the community.

A strong focus is placed on Preparation for Adulthood (PFA), with meaningful links to Careers, Work Skills, and Independence, supporting learners to develop the knowledge and confidence needed for the world of work. Cooking & Nutrition, Personal Progress, and PE/Swimming further enrich the curriculum, promoting healthy lifestyles, practical life skills, and physical development.

Through this carefully structured offer, St. Vincent's ensures all students are equipped with the skills, confidence, and understanding they need to lead fulfilling lives and access future opportunities with increasing independence.

To ensure the curriculum remains broad, balanced, and relevant, students and parents are fully involved in the consultation process when exploring subject choices, pathways, and learning options. This collaborative approach allows the curriculum offer to be adapted each year, ensuring it continues to meet the needs, interests, and aspirations of the current cohort.

Below we have collated a list of subjects / accreditations that St Vincent's can offer depending on the individual needs of the pupils within that Key Stage.
