

Nature's Child

Nature's Child is an educational platform with a mission to help children understand, connect with, and appreciate the natural world. We do this through the medium of ecological education, delivered via online workshops and home-based Science & Nature kits.

Partnership with St. Vincent's

We are delighted to be partnering with St. Vincent's, an award-winning specialist school that puts the environment at the heart of its mission.

Our collaboration consists of specially adapted remote workshops and learning kits for Visually Impaired students. Students learn curriculum content alongside important ecological concepts, ensuring both academic and impactful skill development. A focus on purposeful outdoor activities also boosts connection to nature and wellbeing.

We run free weekly workshops for children aged 5-12 years old, please visit www.natureschild.co.uk/courses to learn more.
